Writing for Dissertations and Publications in STEM Fields

Tuesday, July 31, 2018 ~ 9:00 - 10:30 a.m.

In collaboration with the USF College of Engineering, the McKnight Summer Research & Writing Institute will host a presentation by Dr. Rangachar Kasturi on writing dissertations and publishing in STEM areas.

Don’t miss this free event, where you’ll have the opportunity to:

- Learn how to conduct research and complete your dissertation
- Learn how to develop a dissertation proposal or prospectus
- Learn about creativity, innovation, and patent acquisition in research
- Receive tips on applying for corporate and government grants
- Network with graduate students and professors from USF, UCF, and other universities

Dr. Kasturi is the Douglas W. Hood Professor of Computer Science and Engineering at USF, a Fellow of both the Institute of Electrical and Electronics Engineers (IEEE) and the International Association for Pattern Recognition (IAPR), and a past president of the IEEE Computer Society and the IAPR. Dr. Kasturi co-authored the textbook Machine Vision and holds two patents. He also has written 13 books and chapters, 46 journal articles, and over 100 conference papers and received over $10 million in grants. Additionally, he has supervised the completion of 37 theses and 16 dissertations.
